Environmental, Occupational Safety & Health Training

Job Safety Training:

The Air Force Form 55

"ALL YOU EVER WANTED TO KNOW ABOUT THE AIR FORCE FORM 55"

Supervisor's Responsibilities

AFI 91-301 PARA 7.3.

Safety, Fire Protection, and Health On-The-Job Training

Supervisors must provide specialized safety, fire protection, and health on-the-job training to all Air Force personnel.

Supervisor's Responsibilities

Supervisors provide training to newly assigned individuals and if there is a change in equipment, procedures, processes, or safety, fire protection, and health requirements. *Safety, Fire protection, and Health* (BE, PH, flight surgeon and (or) occupational medicine physician) officials will provide technical assistance to supervisors in developing an appropriate lesson plan for this training.

Supervisor's Responsibilities

- Supervisors will review lesson plans annually and update whenever equipment, procedures, or the work environment change. Supervisors should review the BE baseline and the most recent annual survey report to ensure the outline is current. The training outline, as a minimum, must address mandatory items listed in attachment 5.

Attachment 5 items will be covered later in this briefing

Documentation

- ***7.3.2. Documentation of Training.***

  AF Form 55 will be used to document safety, fire protection, and health training unless other specific documentation is specified elsewhere. Supervisors must maintain a training outline as specified in Attachment 5 and document dates of initial and, as required, refresher training on AF Form 55.
